6/17/77

Dear Jim,

Glad to hear you are gradually surmounting your misfortunes.

I've just returned from a tiring trip to Dallas and then New York to do Good Morning America Wednesday. (Reaction at the show was excellent.)

I went to Dallas on one of the FOIA suits and must clean the accumulation up as rapidly as possible so I can do that work and get it filed in court.

There is no present hope in Congress, none from this committee, as you recall I did predict, based on personal contact. There may be hope from a standing committee in the future. You realize that I'm following the court route. It, at least, is a no-lose path. If I lose it merely leaves me where I am.

You know my feeling about the AIB rascals. You would be well advised to break off before they make you unhappier still.

Please excuse the haste. Best to all.

Sincerely,
